ZUCCHETTI

Matteo Thun

Allievo di Kokoschka all'Accademia di Salisburgo. Nel 1975 si laurea in architettura presso l'Università di Firenze con Adolfo Natalini. Si trasferisce a Milano nel 1978, collabora con Ettore Sottsass, con il quale nel 1981 fonda la Sottsass Associati ed il Gruppo Memphis. Dal 1983 al 1996 gli è affidata la cattedra di design presso l'Università di Arti Applicate di Vienna. Nel 1984 fonda sempre a Milano il Design Studio, oggi composto da un team di 40 architetti, designers e graphic designers. Lo studio offre un servizio completo a clienti internazionali sviluppando progetti che abbracciano campi diversi dall'architettura al design e alla comunicazione. **Matteo Thun e Zucchetti:** Nel 2001 disegna per Zucchetti la fortunatissima collezione Isy, esaltazione del funzionalismo e dell'essenzialità, composta da 5 famiglie di prodotti: Isystick, Isyline, Isyarc, Isycontract, Isybagno. Nel 2003 arricchisce la collezione Isy con la nuova serie Isyfresh. Nel 2004 cambiando invece completamente approccio al progetto ed al prodotto firma la raffinata collezione Bellagio.

A pupil of Kokoschka at the Academy of Salzburg, in 1975 he graduated in Architecture at the University of Florence where he studied with Adolfo Natalini. In 1978 he moved to Milan where he worked with Ettore Sottsass, with whom he established Sottsass Associati and Gruppo Memphis in 1981. Between 1983 and 1996 he held the Chair of Design at the Vienna University of Applied Arts. In 1984 he set up the Design Studio in Milan, which now boasts a team of 40 architects, designers and graphic designers. The studio offers a full service to international clients and its projects encompass fields ranging from architecture to design and communication. **Matteo Thun and Zucchetti:** In 2001 he designed for Zucchetti the highly successful Isy collection, which epitomises functionality and essentiality and comprises 5 product families: Isystick, Isyline, Isyarc, Isycontract and Isybagno. In 2003 he added the new Isyfresh series to the Isy collection and in 2004 he introduced a radically new approach to design and product with the sophisticated Bellagio collection.
